The script consists of five separate blocks, each triggered by a click on a specific finger. Each block follows a similar sequence: a 0.5-second delay, turning the LED off, waiting for a sensor to be triggered, turning the LED on, playing a specific note, waiting for a duration, and then turning the LED off again.

- Thumb:** When clicked, wait 0.5s, LED off, wait until 'sensore pross. oriz. centro sinistra' > 2000, LED on (R: 0, V: 32, B: 32), play note 'la' (440 Hz), wait 'duree' seconds, LED off.
- Index:** When clicked, wait until 'sensore pross. oriz. sinistra' > 2000, LED on (R: 0, V: 0, B: 32), play note 'sol' (392 Hz), wait 'duree' seconds, LED off.
- Middle:** When clicked, wait until 'sensore pross. oriz. centrale' > 2000, LED on (R: 0, V: 32, B: 0), play note 'si' (494 Hz), wait 'duree' seconds, LED off.
- Ring:** When clicked, wait until 'sensore pross. oriz. destra' > 2000, LED on (R: 32, V: 0, B: 0), play note 'ré' (587 Hz), wait 'duree' seconds, LED off.
- Pinky:** When clicked, wait until 'sensore pross. oriz. centro destra' > 2000, LED on (R: 32, V: 32, B: 0), play note 'do' (523 Hz), wait 'duree' seconds, LED off.
